

## IMAGER ML - tutorial

### 1. UPLOAD YOUR IMAGES – AS MANY AS YOU CAN.

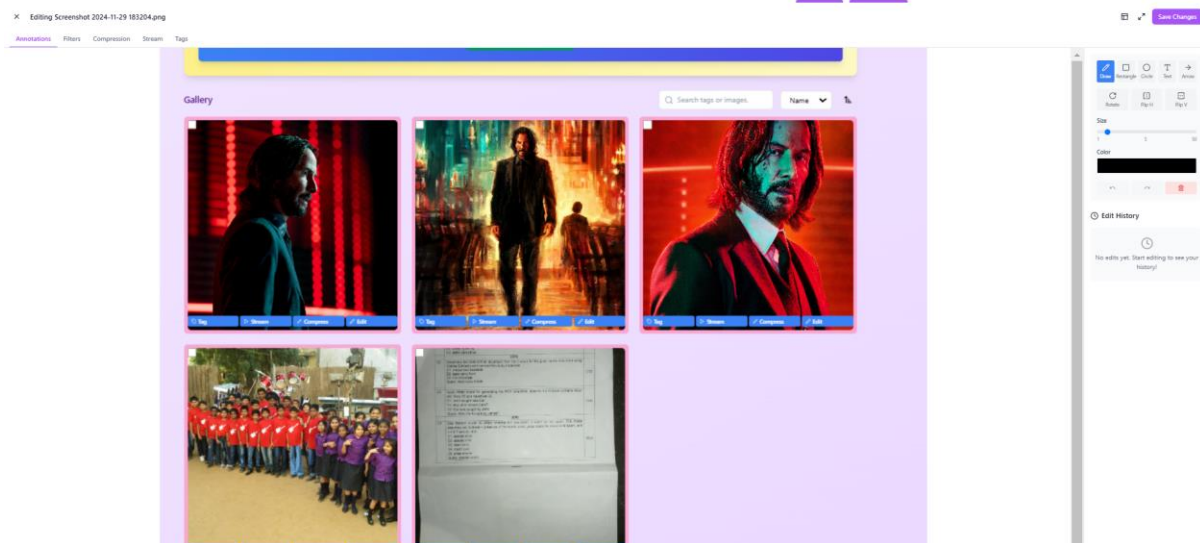

### 2. CHOOSE YOUR IMAGES TO EDIT, COMPRESS, STREAM, TAG

### 4 Options will be generated – Edit All, Stream All, Compress All, Delete All.

### 3. Create your own tags! You can assign colours, rename or even delete your tags for images.

Use the All-in-one image editor for efficient image processing!
